Is this John Lennon, Santa Claus or TTS? He has no beard, so it's probably Santa. This and the following 6 photos were shot at The Party II in Aars.

This is what it looks like when Peace wears the cap.

A happy but tired TTS watching the result of his coding. Asmodis seems to enjoy the show.

A zombie he is, Graham.

A well dressed Triad member. What more can you ask for?

Graham and TTS show their cleaned hands. The third guy is AKC, an Amiga owner. Picture taken at Slide's place.

A very tired Yazoo.

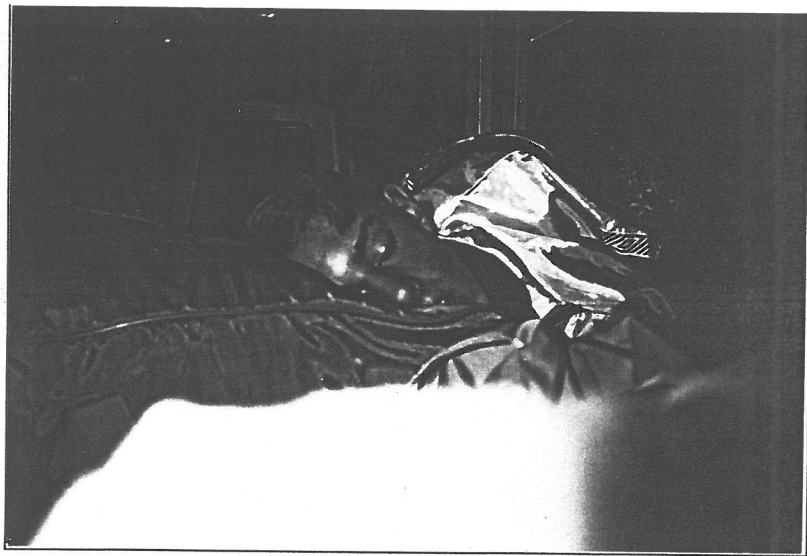

Agree with us that this guy is cute! At the TCC '93.

This must be my best album so far! Here he is again, at Light '92, together with Jayce/Chromance and Marcus/X-Rated.

Sleep is very important for party freaks. That can't be denied after seeing these dudes, beginning with Jayce.

A true G\*P photo! From left to right Walker, Motley, Jucke, Scope, Marco, Mario and L.A. Style with an injured left hand.

Sweet dreams, King Fisher/Triad! In Utvisningsbåset at Light '92.

Another wreck in Utvisningsbåset; Aktie/Triad. He seems to be suffering from a vicious hangover...

Newscopy sniffing party poppers.

This photo should belong to the "unactive dudes" section. Motley in action!

Four heroes with green wristbands: Jucke, Motley, Walker and Scope.  
You can always expect something weird from these guys!

Walker, Scope, Jucke and Motley with Shell bags over their heads.  
G\*P - on the Move... (Please get my point!)

"GP - lokalsinne och världsvana". I wonder what the local newspaper will say about this... Scope, Newscopy and Jucke

"We're mean, we're tough, we're... G\*P?" says Scope  
Motley, *Islive*, L.A. Style, Newscopy, Jucke and Walker.

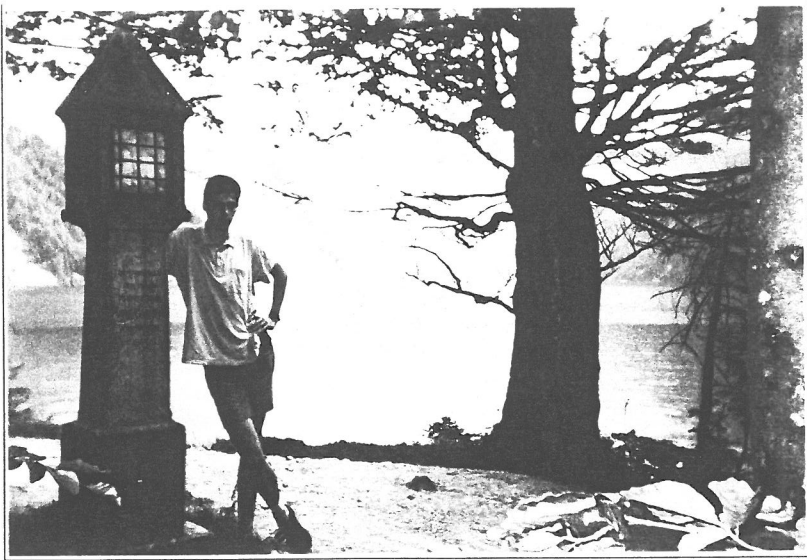

How I've been waiting to get this photo! This is probably  
the friendliest guy in the scene, *Stephen/Epic*.

This guy doesn't look to be so friendly, but he is. *Racoon/Allmen*  
shows his artillery before heading for Somalia as an UN infanterist

Those twins again! Ed/Wrath is probably on the left, and Joe/Antic should be on the right. In the middle? Eliz/Antic.

This is nothing but Nothingface/Clique. Nothing else to add...

A relaxed Ritchie/Trinomic by a car somewhere in Europe.

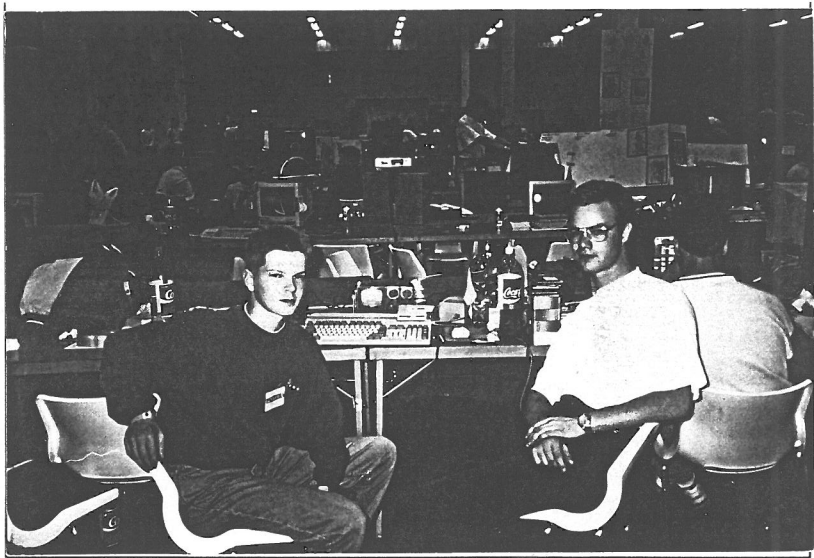

Who are these guys then? They seem to be quite unsure themselves, but they're apparently Achilles/Acrise and Pommac/Noaxers.

Airwalk/Kefrens. No, we all recognise Exalt/Antic, don't we?

Two real buddies; P.R.I./Oxyron, who refused to take the prize money Ed/Wrath offered him at the music compo.

"God, no, it's that camera again!" says Motley/G\*P. Other (half visible) persons are King Fisher/Triad, Jucke and Scope/G\*P.

This face is happy and belongs to TBB/ex-Arcade.

"Ahh, the new Booze Design demo!". Jayce seems like he's been waiting for this demo all his life. Walker doesn't seem quite as interested though

*Cop/ex-Triad looking weird as usual. Sheesh, don't throw that sock! Being a photographer can be hard work sometimes.*

*On the road: Commander/Role, Effy/Guardian Angels and Scorpie/F4CG.*
